PROJECTS

StoreFront | [live](#) | [Code](#)

Tech Stack : React JS, Redux Toolkit, API, Tailwind_CSS

- Built a complete e-commerce application with Redux Toolkit state management, FakeStore API integration, and persistent Local Storage functionality for cart/wishlist across sessions.
- Implemented responsive design with Tailwind CSS custom tokens, Flexbox layouts, and achieving smooth UX across mobile, tablet, and desktop devices.
- Created reusable modular components (ProductCard, ProductGrid, Header, Buttons) and Redux slices for efficient state management and component communication.

TrackIt | [live](#) | [Code](#)

Tech Stack : JavaScript, HTML, Tailwind CSS

- Implemented full CRUD functionality (Add, Edit, Delete tasks) with category-based filtering, enabling users to efficiently organize and manage daily activities.
- Utilized core JavaScript concepts such as event delegation and event propagation to handle dynamic user interactions efficiently, improving performance and reducing redundant event listeners.
- Used Local Storage for data persistence across sessions and built a responsive UI for smooth and consistent user experience.

EDUCATION

AlmaBatter

Delhi, India 2025 – 2026

Advanced Certification in Web Development & Gen AI System Design

Maharshi Dayanand University

Haryana, India 2022 – 2025

Bachelor of Computer Application |  [link](#)

- Relevant coursework: DBMS, Operating System, OOPs, Computer Networks, System Design

ACHIEVEMENTS

Tech Quiz Competition | [link](#)

- Secured 3rd position in a college Tech Quiz Competition

SKILLS

Languages & Tools

JavaScript, Java, HTML, CSS

Libraries & Framework

React JS, Redux, RTK, Bootstrap, Tailwind CSS, Next JS

Platforms

VS Code, Intelli IDEA, Git, GitHub, Netlify, Vercel

EXPERIENCE

Web Developer Intern | Sep 2025 - Jan 2026

Sedwis Software Pvt. Ltd. |  [link](#)

- Worked on WordPress and Elementor to design and customize responsive websites.
- Gained hands-on experience in website deployment, plugin customization, and responsive design.
- Developed and optimized React.js components to enhance user interface performance

Trainee | Frontend Developer

AlmaBetter

- Developed hands-on experience in React.js, Next.js, and JavaScript by building and working on real-world projects
- Developed responsive user interfaces and reusable components using modern frontend practices
- Strengthened understanding of core concepts such as state management, routing, and API integration

SOFT SKILLS

- Adaptability
- Quick Learning
- Time Management
