

DEEPAK CHAUHAN

Full Stack | MERN | React | Database | Generative AI

Delhi, India | +91 7982294460 | deep651965@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on project and internship experience in building responsive web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in RESTful APIs, JWT authentication, CRUD operations, database integration, and reusable UI components. Also developing practical knowledge of Generative AI and LLM integration, with a strong focus on problem-solving and continuous learning.

TRAINING EXPERIENCE

Almabetter | Nov 2025 - Present

Full-Stack Web Development & GenAI Trainee

Skills : MERN, Gen AI, DSA, Team Work, Business Communication

- Built and optimized secure, responsive full-stack web applications using React, Node.js, Express, and MongoDB, applying practices such as data encryption and payment gateway integration — while expanding into Docker, TypeScript, and AWS for deployment and type-safe development.
- Advanced from trainee to Subject Matter Expert (SME) after ranking in the top 5% of a 100-student cohort — mentored peers on debugging, architecture decisions, and problem-solving.

Sedwis Software | Sep 2025 - Jan 2026 | [🔗](#)

Web Developer Intern

Skills : React, CMS, Team Work, Client Requirement

- Architected and implemented reusable React components for a learning management system, enhancing platform responsiveness and user engagement by 25%.
- Owned client relationships end-to-end** — gathering requirements, presenting progress, and translating business needs into shipped web solutions.

PROJECTS

Meridian - AI Market Research & Strategy Engine

Tech Stack : Python, FastAPI, React, PostgreSQL, Supabase, REST APIs, SQL | [🔗](#)

- Built a full-stack AI application** using FastAPI, React, and PostgreSQL with REST APIs and database persistence, reducing research-to-report turnaround from days to minutes and **cutting manual research effort by 95%**.
- Implemented authentication, database migrations, and a multi-stage **AI research pipeline integrating 7+ REST API endpoints for end-to-end automation**.
- Deployed the application on Vercel with a production-grade PostgreSQL backend, maintaining reliable uptime for end users.

Storefront-Commerce

Tech Stack : MERN Stack Project | Node.js, Express, MongoDB, React, Redux | [🔗](#)

- Built a full-stack e-commerce application using React, Node.js, Express.js, and MongoDB, **implementing 20+ RESTful API endpoints** for core commerce operations.
- Developed 6+ major modules** including authentication, product management, cart, wishlist, orders, and user-specific data management.
- Implemented JWT-based authentication with protected APIs**, securing 100% of user-specific operations such as cart and order management. Integrated Redux for centralized state management and MongoDB for persistent data storage across 5+ database models/collections.

SKILLS

- Languages:** JavaScript, Python, HTML5, CSS3
- Frontend & Backend:** React.js, Next.js, Vite, Tailwind CSS, Redux, Node.js, Express.js, RESTful APIs, JWT
- Databases:** MongoDB, MongoDB Atlas, SQL, Supabase, Mongoose
- Generative AI:** Gemini API, LLM APIs, LangChain, LangGraph, Agentic AI, Multi-Agent Workflows
- Tools & Platforms:** Git/GitHub, Postman, VS Code, Vercel, Render

EDUCATION

Bachelor of Computer Application | [🔗](#)

- Maharishi Dayanand University

Relevant coursework: DBMS, Operating System, OOPs, DSA

EDUCATION

- Advanced Certification in Web Development & Gen AI System Design - **Almabetter**
- Python Programming - **Sofcon India Pvt.Ltd.**
